

Booking Policy

Agreement between User and The Kairos Graphic Designs™

Booking a service from The Kairos Graphic Designs™ is the first step to securing your new design. A consultation is required for each service listed on the site to discuss the client's project requirements, goals, and timeline. Consultations are conducted via phone call or video conference. Consultations may be utilized for services not listed on the site to Evaluate the project scope, complexity, and availability to determine if the client's needs can be accommodated. Revisions to payments are not permissible. Acquiring the consultation and design service guarantees your reservation in the schedule. During the consultation, we will coordinate to schedule the project start date and any milestone deadlines. Wix lists a default duration that does not apply to any service except the consultation. The project service that you book will block the time in The Kairos Graphic Designs™ booking calendar until completion. During the consultation, an optional contract/ service agreement will be provided outlining the terms and conditions discussed during the consultation. The optional nature of the contract or service agreement is attributed to the non-refundable pre-payment requirement. Your payment serves as confirmation for a service agreement with The Kairos Graphic Designs™ . The contract/ service agreement will be required and prepared for services delivered post-consultation that are not specified on the website. Clients will be engaged in communication tailored to their preferences to determine guidelines, content, and design specifications. Their input will be solicited for voluntary feedback. Upon the completion of the projects, the final design files or deliverables will be delivered to the client according to the agreed-upon specifications.
